Product 03

Decentralized Trading System

Company-Developed Cryptocurrency

Digital Asset Treasury Business

AMS Develops and Holds Its Own Cryptocurrency. Decentralized-Market Trading Activity and Liquidity Support the Market for That Digital Asset.

Revenue Model

Sales of Company-Owned Cryptocurrency Generate Company Cash. Actual Results Depend On Execution Prices, Costs and Available Liquidity.

Digital-Asset Ownership and Decentralized Trading form a distinct product line alongside centralized trading and media.

$17,738
Total Equity

- Revenue Declined During the Transition From a Third-Party Centralized Trading System Tested in 2025.
- We Stopped Using the Third-Party Centralized Trading System and Developed the Multi-Dimensional Trading System, Which Is 100% Company Owned.
- Current Trading Volume of the New Multi-Dimensional Trading System Is $35,031 From Limited Capital Over 21 Days, October 5-26, 2026.
- At Current Sell Rates With $50,000 in Capital, Projected Trading Volume Over 52 Weeks Is $6.07 Million.

Investment Capital and Strategic Partnership

AMS Systems Group Is Seeking Investment Capital and Strategic Partners in a Series B Financing Round To Advance Three Priorities.

01 **Larger Trading Capital Base**

Expand the Capital Available To the Automated Multi-Dimensional Trading System.

02 **Crypto News Network Growth**

Fund Marketing, Sales and Public Relations To Expand Audience Reach and Support App Monetization.

03 **Liquidity and Market Making**

Support the Decentralized Trading Plan and Company-Developed Cryptocurrency.

Leadership

Greg Bell

Founder

Mr. Bell Builds Businesses Around Major Technology Shifts. Today, He Is Applying More Than 40 Years of Experience in Media, Technology, and Company Building To AMS Systems Group - a Company Bringing Trading, Financial Media, and Automated Financial Reporting Together Through Company-Owned Technology.

Drawing On His Technology Development and Operating Experience, He Has Built AMS Around Artificial Intelligence and Robotic Systems Across Seven Business Disciplines: Operations, Trading, Finance, Marketing, Public Relations, IT, and AI Studios. These Systems Perform the Company's Day-To-Day Work With Limited Human Intervention, While Remaining 100% Company Owned and Under Direct Company Control.

That Approach Builds On a Career Spent Developing New Ways To Produce and Distribute Content. At Qwest Communications, Mr. Bell Founded Slingshot Networks, Its Digital Media Division, Helping Lead the Transition From Traditional Broadcasting To Internet-Based Delivery. in 2000, He Founded B2 Networks, An Early Pioneer in Live Sports Streaming That Broadcast More Than 1,000 Sporting Events Each Month Worldwide.

His Experience Managing and Producing More Than 55,000 Live Events Combines Sales, Live Event Production, Marketing, and Technology Execution. That Operational Background Gives Him a Practical Understanding of How Business Disciplines Must Work Together - and Informs How He Designs, Directs, and Integrates the Systems Running AMS.

At AMS, He Is Bringing That Experience To the Digital Assets Marketplace: Developing Proprietary Technology, Building Multiple Revenue Streams, and Preparing the Company for Rapid Deployment and Aggressive Expansion.
